

Project Executable Files

Date	29 September 2026
Team ID	TBD
Project Name	PocketSmart AI
Maximum Marks	2 Marks

Submission Contents

Path	Purpose
app.py	Main Flask backend and API implementation
templates/index.html	Main web application interface
static/app.js	Client-side application logic
static/style.css	Application styling and themes
requirements.txt	Python dependencies
spend_guide.db	SQLite database used by the application
README.md	Installation, configuration, usage and feature documentation

Execution

Install dependencies with `pip install -r requirements.txt`, configure the required environment values, then run `python app.py`. The application serves the dashboard through Flask.
