

Problem-Solution Fit

Date	29 September 2026
Team ID	TBD
Project Name	PocketSmart AI
Maximum Marks	3 Marks

User Problem	PocketSmart AI Solution	Expected Value
Expenses are difficult to track consistently	Centralized expense entry and transaction history	Better visibility
Users cannot easily see spending patterns	Charts, category breakdowns and monthly trends	Faster understanding
Budgets are disconnected from actual spending	Monthly budget tracking and health indicators	More informed planning
Savings progress is hard to monitor	Savings goals with progress visualization	Goal awareness
Manual receipt entry takes time	Optional Gemini-powered receipt scanning	Reduced data-entry effort
Users need interpretation, not only raw data	AI/rule-based recommendations	Actionable insights

Fit Statement

PocketSmart AI combines the core personal-finance workflow—record, understand, plan and improve—inside one lightweight web application.
