

Proposed Solution

Date	29 September 2026
Team ID	TBD
Project Name	PocketSmart AI
Maximum Marks	3 Marks

Project Description

PocketSmart AI is a web-based smart budget and recommendation assistant that helps users track expenses, manage monthly budgets, set savings goals, visualize spending, scan receipts, export transaction data, and receive AI-assisted financial recommendations.

Key modules

Module	Description
Authentication	Registration, login, logout and authenticated API access.
Expense Management	Add, list and analyze expenses by category and date.
Budget Management	Set and monitor a monthly spending limit.
Savings Goals	Create goals and track saved amount against target.
Analytics Dashboard	KPIs, category breakdown, monthly trend and health indicators.
AI Recommendations	Rule-based recommendations with optional Gemini enhancement.
Receipt OCR	Optional Gemini Vision extraction from receipt images.
CSV Export	Export transaction records for external analysis.
Theme	Dark/light mode stored in the browser.
